This
Cookery Book
of nearly 200
pages is
FREE
to you

Here's a great big Cookery Book of nearly 200 pages—finely printed, beautifully illustrated—cramped full of splendid time tested recipes—recipes that are economical and practical.

The Highlander Cookery Book is the standard reference work of tens of thousands of New Zealand women. Indeed so valuable is it that it is sold at a good figure by the Red Cross Societies of the Dominion.

But there's an absolutely free copy of this splendid work available for you—just send your name and address and the book will be sent post free by the next mail.

In addition to good recipes in all branches of cooking, it tells about Highlander Milk—the Condensed Milk that sets the standard in New Zealand and throughout the Pacific.

Send to-day while there's still a copy available for you—address, "Highlander," Dept. "A," Free L. Watson, Ltd., Agents, Honolulu.

STAR-BULLETIN 75 CENTS PER MONTH

TWO DISTRICTS ARE CREATED FOR IMPROVEMENTS

Bishop Street to Be Extended,
Hotel Street to Be Widened
By New Projects

Two big improvement districts, one the extension and paving of Bishop street from King to the waterfront, and the other the widening of the walkway side of Fort street at Hotel, were inaugurated at the meeting of the board of supervisors last night.

The former was brought about by the rejection of the proposed paving of Bishop street from King to Queen by protests signed by 90 per cent of the property holders. Their reason for protesting was because they believe it should not be done until the street is opened up to the waterfront. As a result Arnold moved that the city and county engineer immediately proceed to determine what property holders are affected on Bishop street from King to the waterfront and report to the board.

In regard to the protests, Arnold severely scored the big interests who were the principal protestants.

"It seems strange that the biggest firms in the city can't get together and help improve a street when it is so badly needed," he said, "and the board ought to go on record as opposed to all improvements for Bishop street. The Mahuka site is valuable property but it will never increase in value until the streets surrounding it are improved. Right now it is not the wealthy man who suffers by the lack of paving, but the poor fellows who use Bishop street. It could very easily be paved to Queen street and have the rest of the work done when the extension is made. If we are going to extend Bishop street, the sooner we get started the better, as it will probably necessitate the passage of a bill through the legislature to obtain part of the land," Arnold added.

Larsen opposed the extension. "You probably do not know, but I do, because I have been told that the Davies warehouse is to be torn down and another building erected and I move we wait," he said.

"Yes, I know all about that," Arnold said, "and for that reason we must hurry in drawing the plans of the new buildings, for, if it is shown that a street extension is proposed, the plans will be made accordingly." Hotel Street Taken Up

The next business considered was the public hearing on Hotel street. Arnold's request that the hearing be postponed until next Tuesday as the Brewer estate wanted the walkway side of Fort street widened in conjunction with the widening of Hotel. "Tuesday they will bring in a report as to what they will do," Arnold said. "It has been figured that the new work will cost approximately \$130,000. It is, however, absolutely impossible to have both projects in one improvement."

"We simply have not the money for it," he said. "In widening Hotel we have done what other boards have tried 10 years to do. However, I feel that the work should be done and, therefore, let us work it up to the public hearing and assessment roll and when our successors take office in July they can finish it. It will give them a start which was more than we had."

CECIL BROWN IS LAID TO REST

The remains of the late Cecil Brown, one of Hawaii's best known kamaaina, were interred Wednesday afternoon in Nuuanu cemetery. Funeral services were held at St. Andrew's cathedral at 4 o'clock. Rt. Rev. Henry Bond Restarick, bishop of Honolulu, and Rev. Canon William Ault officiating. A large number of Honoluluans, many of them old friends of Mr. Brown, attended the services. An escort of police was furnished for the funeral cortege. Many beautiful floral tributes were in evidence both at the church and at the cemetery.

Resolutions of regret at Mr. Brown's death were passed yesterday by both houses of the legislature, a committee from each house being appointed to attend the funeral. The senate committee consisted of Senators Shingle, Baldwin and Coney, and the house committee of Representatives Miles, Andrews and Kalana.

CONGESTED CONDITION OF MERCHANT STREET NOTED

To include Merchant street, from King to Bethel, in the congested traffic district which prohibits automobiles standing at the curb for more than a half hour, was moved by Supervisor Larsen Tuesday evening and although no action was taken the suggestion was received with approval by the other members.

"The parking of automobiles on Merchant street, leaving only a narrow space between, has caused the street to become extremely dangerous," said Larsen. "It will probably inconvenience many people, but that can not be helped."

The 19 line "leader" in Thursday's London Times on Thee Rom Concordant is probably the shortest which has ever appeared in its columns. For that brevity which is the soul of wit, we are more accustomed to look to the London Star, which on the same day published an editorial on American finance which ran to eight lines. It was headed Money Talks; but there was no other suggestion of garrulity.

NEW SIDEWALKS ORDERED PUT IN

The construction of sidewalks came in for considerable discussion and action by the board of supervisors Tuesday night, particularly on Kalakaua avenue.

In taking up the edgel Arnold said, "Kalakaua avenue is looking very well now, but with sidewalks in it will look better and with the trees cut, still better."

On motions made by Arnold the board voted that sidewalks should immediately be put in on King in front of the H estate property and on Kalakaua avenue in front of the Booth property and at other points on Kalakaua where there are no sidewalks, and legal action be taken if the owners do not pay.

At this Larsen got up in wrath and demanded to know why his motions for the construction of sidewalks on Nuuanu avenue and King street extension had not been attended to.

He was appeased, however, when informed that the preliminaries had just been finished and the installing of sidewalks would begin at once.

HOLLINGER WANTS CARDEN TO QUIT ONE POSITION

W. T. Carden, deputy city and county attorney, came in for a rap from Supervisor Ben Hollinger Tuesday evening.

It was all about the old question as to whether Carden should hold two government positions. Larsen had asked why the King street extension light traffic ordinance had not been prepared and A. M. Cristy, deputy city attorney, replied that the office was now doing six men's work and had not found time.

"If the county attorney's office has too much work it is about time Carden dropped some of his other jobs. Carden is at the public utilities commission meetings four or five times a week and it should stop," Hollinger said.

Cristy came to the defense of Carden by saying that if Hollinger would take the trouble to call on Carden almost any night he would find him working until long past midnight in the interest of the city and county.

CITY BUSINESS AND SUPERVISORS' NOTES

The next meeting of the board of supervisors will be held next Tuesday evening at 7:30 o'clock.

Following an announcement by the finance committee that money was available, the board of supervisors passed a resolution on its second reading appropriating \$5000 to continue the construction of the road and retaining wall at the Fall.

Supervisor Logan suggested that Sheridan street be made an improvement district on a 100 per cent basis. Arnold said he did not believe the property holders would agree. Logan thought they would and he was appointed a committee of one to investigate.

Because the automobile number plate firm did not live up to its contract and made 1000 of the plates two inches short and sent but two-thirds of the motorcycle plates the board of supervisors voted to withhold \$213 of the contract price of \$335. Of the amount withheld \$113 will be paid when the rest of the motorcycle plates arrive.

MOTHERHOOD WOMAN'S JOY

Suggestions to Childless Women.

Among the virtues of Lydia E. Pinkham's Vegetable Compound is the ability to correct sterility in the cases of many women. This fact is well established as evidenced by the following letter and hundreds of others we have published in these columns.

Poplar Bluff, Mo.—"I want other women to know what a blessing Lydia E. Pinkham's Vegetable Compound has been to me. We had always wanted a baby in our home but I was in poor health and not able to do my work. My mother and husband both urged me to try Lydia E. Pinkham's Vegetable Compound. I did so, my health improved and I am now the mother of a fine baby girl and do all my own house work."

—Mrs. ALMA B. TIMMONS, 213 Almond St., Poplar Bluff, Mo.

In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

Write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice—it will be confidential and helpful.

KOTOHIRA TOOK CARTRIDGE MILL TO MANZANILLO

Despatch From Mexico City
Says She May Bring Artillery
Plant on Her Next Voyage

Confirmation of the belief here that the Japanese freighter Kotohira Maru, which steamed from this port for Yokohama Wednesday morning after taking 350 tons of bunker coal, carried cartridge-making machinery from Japan to Mexico, is furnished in a despatch from Mexico City dated February 25 and printed in the San Francisco Examiner of February 26, copies of which arrived on the Lurline Tuesday afternoon.

When the Kotohira, which arrived Monday morning direct from Manzanillo, was in port here, taking on bunker coal her officers first said they had landed paper-manufacturing machinery at Manzanillo. The next day they changed their story to cartridges, saying they had taken 500 tons of ammunition to Manzanillo for the Mexican government. The freighter paid in American gold and paper money for her expenses here, as stated in the Star-Bulletin of Wednesday.

The Examiner's despatch reads as follows:

"MEXICO CITY, February 25.—The cartridge-making machinery purchased from Japan has been unloaded at Manzanillo from the steamer Kotohira Maru and soon will be put in operation. Two hundred Japanese experts accompanied the shipments in order to set up the machinery and operate it. It is hoped by the government that this machinery will make Mexico independent of other countries for ammunition."

"It is understood the machinery was purchased through efforts of Maj. Carpio of Gen. Obregon's staff, who went to Japan some months ago. It was necessary to rebuild the docks at Manzanillo in order to land the machinery."

"It is believed that the government shortly will purchase machinery for the manufacture of artillery ammunition."
